COMPANY PROFILE

NOOR 2024

About us:

Noor: Illuminating Lives through Humanitarian Relief

Noor, a name that resonates with hope, symbolizes our unwavering commitment to illuminating the path to a healthier and greener future in Sudan and across Africa. We're not just a company; we're the beacon of change, bringing the transformative power of global technologies to address the unique challenges faced by our local communities.

Our vision:

Better Health & Sustainable Environment

Our Mission:

Let there be Noor!

We've set out to bring light to the darkest corners, where health and the environment stand at a crossroads. Our goal? To enrich lives, to ease suffering, and to create a lasting legacy of positive change.

Our Products

Championing the Environment

Our pledge is to safeguard both our planet and our people. We stand shoulder to shoulder with Mother Earth, offering sustainable solutions that do no harm, today or tomorrow.

Unyielding Support

In times of disaster and conflict, Noor steps in, providing simple, sustainable solutions for nonprofits to enhance living conditions and offer hope when it's needed most.

Non-Food Items

We provide families with essentials for survival and dignity in times of crisis.

Hygiene Kits:

Tailored for every need, eco-friendly, and wrapped in care.

Water Solutions

As the threat of water pollution looms, we stand as pioneers, providing life's most vital resource to those in remote areas where energy is a distant dream. We're not alone; we work hand-in-hand with government bodies, UN organizations, and NGOs to bring clean water, that positively impact health, and education to countless children.

Water Testing

Noor is your trusted partner, bringing cutting-edge, customized portable water testing kits to the farthest reaches, ensuring safe drinking water for all. We proudly represent an array of world-class water testing devices and kits.

Water Treatment

Our expertise doesn't stop at testing; we purify. From chlorine disinfection to custom water treatment units, we're engineers of clean, life-giving water, ready to adapt to any challenge.

Vector Control

We fight the rising tide of vector-borne diseases, equipping communities with the tools.

Mosquito Nets

Long-lasting insecticide-treated nets (LLINs). Defenders of sleep, ensuring sweet dreams are free from malaria.

Vector Control machines/ devices

From advanced pesticides to cutting-edge machines, we wage a relentless war on disease vectors.

TRAINING

Knowledge is power, and we empower individuals to operate our equipment effectively. Theory meets practice for maximum impact on the ground.

At Noor, we're more than a company. We're a movement, a force for good. With dedication and innovation, we stand ready to bring light, health, and environmental sustainability to those who need it most.

Together, let's make a world where Noor shines in every heart.

Training on Water Testing Kit - World Vision - Khartoum

Training on Water Testing Kit - UNHCR - Kasala

Training on Fogging Machines - Ministry of Health -Khartoum

Training on Water Quality and Treatment Units - World Health Organisation (WHO) - Senja/ Sinnar State

Empowering Women in Wartime:

The Impact of Noor Company's Hygiene Kit"

In a war-torn rural setting, Amina faced daily uncertainty and hardship. Noor Company's hygiene kit, with essentials like soap and sanitary pads, became a lifeline, offering her dignity and safety. Beyond tangible items, the kit symbolized strength, proving that even in harsh circumstances, well-being could be preserved. Amina's story showcases the profound impact of these kits, emphasizing Noor Company's commitment to empowering women in conflict zones. Join us in bringing hope and empowerment to women like Amina.

Rescue Items

locating and tracking missing or distressed individuals or vessels, can provide valuable information about the location, distance, and movement of objects, which can aid in planning and executing rescue operations.

There are various types of rescue systems used in search and rescue, including airborne radar systems mounted on aircraft, marine radar systems used on ships and boats, and even handheld radar devices used by ground-based search and rescue teams.

Overall, the specific application and capabilities of a “Rescue Items” can vary depending on the context and the specific technology being used.

PARTNERSHIPS

Ministry of Health

Noor Company has forged strong partnerships with the Ministry of Health in Sudan, working collaboratively on a range of projects focused on Vector Control, Water Testing, and Food Quality Testing. These partnerships have allowed us to bring cutting-edge technologies and customized solutions to the forefront. Through our expertise and commitment, we've empowered government officials to not only meet but exceed their set goals, ensuring a healthier and safer environment for all.

World Health Organization

In close cooperation with the World Health Organization in Sudan, we embarked on a remarkable journey to develop a locally-assembled portable water testing kit. This innovative solution enables the swift assessment of basic water safety parameters during emergencies, contributing to the well-being of countless communities. Our efforts have streamlined the work of health officers in remote areas, resulting in significant cost savings, estimated at approximately %65 of the budget. This demonstrates our dedication to providing efficient, cost-effective solutions that have a tangible impact.

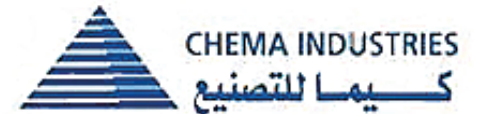

UNICEF Sudan

Our collaboration with UNICEF Sudan exemplifies our commitment to community engagement and awareness. Noor Company proudly supported UNICEF Sudan in the design of a household water testing kit, which not only safeguards drinking water but also engages the community in the testing process. This initiative raises awareness about the critical importance of regular testing and treatment, ensuring the safety of the drinking water supply. It is a testament to our dedication to not only providing solutions but fostering a culture of responsibility and well-being within communities.
